SUNBEAMS

By WALTER M. BARRETT

As usual, the noisy minority is making itself heard in the controversy over the proposed Emerald Bay highway rerouting. The division of highways reported receiving a flood of letters from the San Francisco bay area and other sections far removed from the projected highway site, protesting a low level route and picturesque bridge. Very few of the people living in the area or those dependent upon the road for travel both winter and summer favor the high level route but apparently are not "ganging up" to write protests. Organizations with hundreds of members no doubt are forming letter writing groups. There is a strong probability that these people use the road very little and likely not at all during the winter and do not care what inconvenience, and even danger, might be caused to those who do. They probably are not considering the excessive cost of the high level route and are thinking in terms of protecting the esthetic beauty of the bay for future generations. **We wonder if the same squawk was put up when the San Francisco bay was "desecrated" by bridges or the rugged Sierra "mutilated" by four-lane freeways. We frankly believe that Emerald Bay will remain beautiful whether or not a bridge is built, but we can visualize much of this beauty being transformed into a pile of debris which would result from building a high level road and a series of unsightly and highly uncertain tunnels. May we suggest that those desiring the bridge and a safer, shorter and less expensive route make their wishes known to counteract some of the propaganda from the "nature lovers."**

15 Inches Of Snow Falls To Relieve Local Dry Season

BULLETIN

The storm Wednesday and Thursday deposited 15 inches of snow in Truckee up to 9 a. m. today and left 1.10 inches of precipitation to bring the total for November to 2.13 inches compared to 3.39 normal for the month. Snow was continuing to fall this morning.

The major storm which dumped more than 36 inches of new snow in Siskiyou County and favored other northern California counties with generous precipitation, did very little good in this region.

The Truckee District of the Tahoe National Forest reports only .25 of an inch of rain was recorded here during the past weekend and only .19 of an inch was measured at Tahoe City. Light snow, mixed with rain, fell on Donner Summit but failed to add to the scant pack.

Normal precipitation for Truckee at the end of November is 5.56 inches and to date, since September, the area has had only 3.62 inches.

As a result of the continued lack of moisture, the level of Lake Tahoe continues to drop and Monday, according to Daryl DeWalt had dropped to 6222.71 compared to 6222.74 on the same date last week.

Injury Accidents Reported In Area In Long Weekend

Although the death toll from highway accidents in California were high for the long Thanksgiving weekend, there were only four injury accidents recorded by the California Highway Patrol in the Truckee district, and only one of these was of serious nature.

John Peacock, 18, of Rocklin suffered major injuries Saturday at 5:50 p. m. when a car driven by Denver R. Hyce, 19, rammed the rear of a car operated by John W. Tuck, 50, Santa Rosa a mile west of Soda Springs. Tuck had stopped to install skid chains. Also taken to the Tahoe Forest Hospital was Janice Hyce, 19, Rocklin.

Wayne M. E. Germain, 24, Floriston, was hurt Saturday at noon in a freak accident a mile west of his home. The door of his foreign made car flew open and when he reached to close it he lost control and the car left the road and overturned several times. He was pinned under the machine until help arrived to lift the car off his wrist. He was taken to the hospital for treatment.

Mary Waller, 46, Reno, suffered minor injuries at 3 a. m. Saturday when a car driven by Donald J. Waller, 39, got out of control on a curve a mile and a half east of Carnelian Bay and overturned. Waller was cited for speeding and not having his car under control.

Four people had minor injuries as the rusult of an accident on Donner Summit Saturday at 6:15 p. m. when three cars were involved in a rear end collision. The cars were driven by Donald J. Baker, 21, Hayward, Jack W. Olson, 34, Fallon, Nevada, and Nolan F. Gregory, 46, Reno. All were traveling east and Olson and Baker had stopped to install chains and Gregory was unable to stop on the icy highway.

SUMMIT SCENE

By FRAN COUILLARD

Hi, I'm back. No clams. Four hundred and fifty miles (one way) looked like a long, long road when I took but a week away! And when we read of the Norden fire, and a snow fall, felt that we should come home and dig in for the big push!

This is the first time that we have had a conflict between construction and utility workers—and the snow sport fans- So it was a big push. The big city spreads that told of wonderous conditions for the skier pushed them up the hill, whilst the disasterous conditions that existed on the Summit Scene from the holocaust held the non-skiers. It was a heterogonous conflict with us in between.

The ski tow operators who had stars in their eyes as they envisioned skiing on Thanksgiving for the second year in succession, believed the weather reports and oiled up their machinery. The skiers looked out of the windows as they watched the white gold turn to slush from heavenly warm sprinkles and waxed their skis whilst they waited.

On Friday A. M. the lights blinked as the Soda Springs T Bar motor started to hum and skiing season was officially opened—whilst the construction and the utility and the supervisors of the same business in amazement that such a business really existed! And whilst the puzzled ones sedately ate their dinner in the dining room—the skiers (many who hadn't seen each other since last season) sang their songs and raised their steins which caused further consternation between the two ilks!

We noted that the puzzled ones slowly shook their heads as they trundled off to bed, whilst the "invaders" took off their ski boots and changed into their snow dance shoes.

T'was quite an interesting week end! And tolerance was stretched to a fine thread!

Incidentally reports from Donner Ski Ranch enthusiasts said that skiing at this high spot was really good! Karen Sayler told us that they had good crowds; that they will be open every week end until December 15th when they plan to open continuously; that their new lift will be in operation either this coming week end or the next week end; that they are instituting a junior training camp for youngsters under seventeen who are interested in racing, and that Babette Haueisen will be in charge of this latter group.

Also that Edvi Aro confirmed our prediction as he took over the directorship of the ski school. Edvi's "helpers" this past week end were Bob Cameron, Ken Keneda and Don Cast. We understand that his handsome triumvirate of stand by instructors will be Jerry Mikocich, Bob Schrieber and Phil Sullivan. Anyway they are off for the season and its another six month skiing that we face.

And what did you do on Thanksgiving? Karen and Norm Sayler had dinner in Sacramento.

We met good mountineer Helen Reich who was walking off her turkey dinner which she had accumulated from the table of Madylon. Stan and Starr Walton's.

We (the Soda Springs Lodge) set up our family table for Max Williamson and his family, and Bob and Sybil West. On the Max Williamson side sat pretty Nancy Williamson with her fiance and we learned that the day before Thanksgiving Nancy had celebrated her twentieth birthday.

Who would drop in but the red headed Alexander family, Red (Omar), Clair, and Patty. They were on their way to Sierraville to visit. Were really happy to see them and I guess a lot of their mountain friends and Truckee friends would have been happy to have seen them, too. This popular couple now reside in the southern part of the state and "Red's" card reads State of California, Department of Public Works. "O. G. "Red" Alexander, Highway Superintendent."

The kids tell me that they live in the Sylmar section of Los Angeles which is out of the eye smarting part. And if you want to contact them—here's the dope, 13253 Tripoly Ave—and if you want their telephone number, I have it! And while we were surfieting ourselves with turkey and the trimmings, we thought of our chef who was languishing in a Reno hospital and with a most unromantic condition. Al Stanley swallowed a chicken bone! A tiny little old thing but it cut him all the way down to where it lodged and he's glad that he was "out" when they fished for it. But anyhow he's home and back on the range again—and so we really had a home cooked dinner—which Dorothy Cannon and your's truly managed to put out in good order—but we are glad that no one came in the kitchen to congratulate two bedraggled and sunken eyed cooks! Wow!

And as this was cook's time out in the hospitals—we'll say that Milton Judd is still in the Veteran's Hospital in Reno which left Donner Summit Lodge in the same fix that we were in.

Peg Travis, who cooks in her own Coffee Shop at Soda Springs, had been in Sutter General in Sacramento but she took herself out of that institution so that she might arrive home on Thanksgiving day. She was brought up the hill by the Frank Allens of Sierra Lakes who had a whale of a Thanksgiving! Fran Merlyn, Sierra Lakes' most fabulous cook—tells us that they fed seventy-three people out there (Ice Lakes to you and me). Fran read off her menu to me and even after I think that I cannot bite a turkey in the leg for a heck of a long time, Fran's menu which had champagne sauce for the turkey and pickled peaches and watermelon rind and stuff like that there—makes me think that I could bite a turkey in the leg if she cooked it! And says Fran—the ski tow was in operation out in that back country place, too. And the little kids built a snow fort and had an old fashioned snow ball fight. And we are reminded of that poem which goes "Over the river and thru the woods to Grandfather's house we go—etc" but we can't remember whether this applied to Christmas or to Thanksgiving. And they had their joy dimmed a bit too out there, Frank Stella, Manager—was notified that his mother in Helper, Utah, had passed away from a heart attack—so Frank left the festivities to plan a sad rite.

And let's see! The Bud Zorich family had their Thanksgiving Dinner at home—their very first in ten years. The Zorichs have always traveled for their dinner on Thanksgiving Day but this year Deb put her foot down. This youngster wanted some turkey left at home for a change so she could nibble the next day. (Best part of it, too, huh?) And speaking of the Zorichs again—we are busily preparing for the presentation of the "Ski Fashion Snow Case" and December 9th is the date if you haven't circled it on your calendar. Barbara's well trained, curvaceous and vivacious models (in that class) are Betty Board, Marlene Maughan, Beverly Cardwell, Shirley Winthers, Betty Aro and Diane Anderson.

In the tiny tot class we will have Tina Vail (whom you must meet) just past two, bejeweled with dimples and a terrific "ham." Believe that she will stroll down the runway with four year old Tommy Zorich—remember Santa Claus, as we call him—born on Christmas Day? (Hope he wears his leather jacket and lieberhosen again.)

This will introduce Leslie Samuelson, too. Leslie is in the newcomer's department. Think he is four and the young son of Gene and Lois Samuelson of Donner Summit Lodge. This will take care of the tot department. The kids "now on probation" are the teen agers. They'll make it all right if they "behave themselves" between now and the ninth of December. This probationary period has had much effect as that "if you'll be good" period before Christmas! And these are Debby Zorich, Barbara Lyddane, Billy Strickland and Dennie Hamond.

The men's show off department hasn't been set up as yet. Oh yeah, they been asked—but they are always the last to commit themselves. (Funny, too — there isn't anything as vain as a gentleman skier when he has donned his new stretch pants, his quilted parka and his pixie cap. The male peacock preening his nylon and rubberized feathers reluctant about prancing down the lighted runway? Seems so. Now in our Old Newcomers Department.

ANDERSONS REPORT ON HURRICANE TARA

Mr. and Mrs. J. D. (Andy) Anderson, former well known residents of Tahoe Vista, experienced a bit of excitement in their new home at Acapulco recently when the hurricane, Tara, caused untold damage in a nearby town a few weeks ago.

The Andersons had been in Tecpan, just three weeks prior to the arrival of the hurricane where Anderson attended and enjoyed the institution of a new Mesonic Lodge. The ceremonies were held in the grammar school, Anderson wrote, and afterward a barbecue was served on the school grounds.

The hurricane, he said, completely destroyed the school, hundreds of homes and the latest count showed nearly 500 deaths.

He commended the way the people of the country went to the rescue with money, clothing, food and medicine.

Had not the hurricane split before it hit the coast, Anderson wrote, "I might be adding something dreadful from here, but as it was it split, so we got more or less the edge. It then swung back and gathered when it got farther north."

He said that for nine days it rained, "and when it rains, brother, it don't play around. Too bad Lake Tahoe didn't get some of it, it really would have raised the level back to normal in one shot."

Happy birthday, Nikki Ann Wing, our own "Miss Lake Tahoe," on November 22nd. Nikki Ann flew to Reno from San Jose State College to spend Thanksgiving with her parents, Mr. and Mrs. Otis Wing of Kings Beach.

Marty Prescott arrived at Kings Beach for the Thanksgiving holiday to spend it with his father, Dr. Walton Prescott. Dr. has just returned home from Georgia where he visited daughter, Barbara and husband. Wonderful trip.

Barbara Kammerer of Reno is home after suffering second degree burns on her face. Caution to sunlamp users. Barbara fell asleep under the ultra red lamp and this she does not recommend. A student at the Reno beauty school she will remain home with mother, Barbara Newell, until after the Thanksgiving holiday. Ron Donley of Kings Beach will be a dinner guest at the Newell home.

Dining at the Crystal Bay Club Friday evening were Harvey and Harriet Price and Ben and Nora Berrari of Kings Beach and Guy and Norma Wilson, Carnelian Bay. Four of the group—teachers.

Happy birthday, Scott Wilson, four years old on November 17th. Celebrated with dinner at Crystal Bay Club with parents, Guy and Norma Wilson and sister Shelley.

Daniel James Ferrari, born November 7th in Vicenza, Italy, has grandparents in Kings Beach—Ben and Nora Ferrari. Daniel's parents are 1st Lt. Robert G. and Audrey Ferrari.

Dr. and Mrs. Jos Salvadora of San Jose are visiting their new summer home, which is almost completed, at Carnelian Bay. Plan to enjoy their first Thanksviging in their new home.

Rumors aren't as a rule listened to. However, on good authority it is understood that an eligible T n T bachelor will make an interesting announcement!

Mr. and Mrs. Marvin Price who have been visiting and recuperating in Kings Bearch this past three months have returned home to Fullerton — chauffered by Mrs. Price's son, Gene Faulkner. The Prices suffered injuries in a car accident in which Mrs. Price's daughter, Icey Laborde, broke her back. They too were hospitalized and spent six weeks of their visit in the hospital. Okeh now.

Carol Jean Hansen of Los Angeles visited her father, Speed, at Carnelian Bay last week. The Thanksgiving holiday was spent in Angeles with the family; Speed's wife, Velma, and son, Bobby, and Carol Jean.

Louis and Bess Graham and children, Pat and Leslie of Oakland and "Pop" Critchley spent the Thanksgiving holiday with Bob and Mae Critchley and children, Karen, Chery and Kathy at Tahoe Vista.

The Earl Hills and children, Carrie and Randy, and Mrs. Louise Hills of Southgate spent Thanksgiving with sister and daughter, Betty Vance at Kings Beach.

Alice and Lloyd Hall of Kings Beach enjoyed Thanksgiving with Alice's son and family, Jack and Georgette Klingle and children, Kathy, Lynn and Gail, at Pleasanton.

Attending the Shrine Champagne buffet dinner with Harry and Ceta Hooper of Brockway were Tam and John Fraser and Andy and Beverly Seant of Reno.

The Women's Society of Christian Service held their regular meeting at the Community Methodist Church Wednesday, November 15. A potluck lunch was enjoyed by the eighteen ladies present. The society is purchasing a scrubber and waxer for the church which will add greatly to the convenience of keeping it clean. A rummage sale will be held January 12 and 13 at the church. Pat Acker of the North Shore Cleaners kindly agreed to store any donations for the sale at the cleaning plant. A lovely hand crocheted table cloth will be given away at the rummage sale and home cooked food will be sold. December 6th is the next meeting date Present at the meeting were Fay Dean, Frances Thompkins, Gudrun Johansson, Helen Chanda, Helene Leon, Patricia Acker, Louise Walter, Pearl Drany, Neva Marsh, Ella Fisher, Clara Van Hooser, Freda Fowler, Doris Ingram, Adeline Gunkel.

Lyle and Adeline Gunkel and son, Greg, of Tahoe Vista headed for Los Angeles and Disneyland for the Thanksgiving Holiday. Went via Chico to pick up daughter, Beverley, who is a student at Chico State College. Last year's Disneyland trip was cancelled due to Greg's ill-timed indisposition with the mumps. Better luck this time!

Gary and Ann Gunkel and baby daughter, Karen, of Tahoe Vista spent Thanksgiving with Ann's parents, Mr. and Mrs. John Phillips, at Martinez.

Harry and Vivian McIntire and children, Harry and Cathy, of Tahoe Vista spent the holiday with Mr. and Mrs. Harry F. McIntire at Carlsbad-by-the-Sea.

Otto Walter, Fred Rockholm, Bob and Mar Howell and son, of Kings Beach all went pheasant hunting Sunday to Susanville. Hunting was fair and traveling bad —snowed on them all the way home.

Mr. and Mrs. Kenneth Brock and children, Scotty and Gleny, of Yuba City were Thanksgiving day guests of Otto and Louise Walter at Brockway.

AFFAIRS OF STATE

by Henry C. MacArthur

SACRAMENTO — (CNS) — A new move to put California's schools on a business-like basis by converting to a full-time school year is under way. State Senator Virgil O' Sullivan, Williams, called attention to the need for better utilization of school facilities in a recent release.

The move may gain some impetus, coming from a rural area senator, who says the old concept of summer vacations for children to "help with the crops," is no longer an argument in favor of a three-month vacation from school work.

Senator O'Sullivan points out the growing need for more use of California's school bulidings, as related to the growing costs for new class-rooms.

After citing figures concerning prospective growth in student population, an eventual 100 per cent in student total, he declared:

"The taxpyaer cannot help but question whether better use of existing facilities might alleviate this situation.

"There are several possibilities for full use of public school facilities. One of these is the four-quarter system with student attendance compulsory during nine months of the year, increasing the capacity of existing school building by 33 per cent.

Another possibility is a five-semester system, providing four fifths of the students in attendance at any one time, which will increase capacity by 25 per cent instead of 33, but allows the traditional week at Easter and two weeks at Christmas to remain. Both systems offer certain advantages to the student, the teacher and the parent. The ideal situation may result by a compromise of the two or variations of one or the other."

The Williams senator points out that 70 per cent of California's teachers are employed during the summer vacation at jobs not related to their profession.

"Obviously many, he declared, "would prefer to increase their income while continuing their chosen profession, which in turn would alleviate the teacher shortage situation so prevalent in many area."

O'Sullivan says many aspects, many advantages and many obstacles offer a challenge to the development of such a program.

"But there is no proof that this will not work to solve our present financial situation in many areas of the state," he said. "Any scheme to increase quality and reduce cost must be worked out. It will not just happen."

Senator O'Sullivan has a monumental task ahead of him in "selling" a full- year school plan. It has been tried before, and a survey recommended against it. The survey, of course, was made by school people, who obviously don't want to disturb the inefficient, expensive methods used in education today.

But if O'Sullivan can come up with a study commission representing the taxpayers of the state who foot the bills for the schools there might be a different recommendation at the close of the studies.

It may take some years and a tax revolt to bring the public to the realization that millions of dollars are being wasted in education but it would be worth the effort.

LEGAL DRIVER HELD TO BE SAFE DRIVER

You've heard the familiar slogan, "drive carefully, the life you save may be your own." But exactly how do you drive carefully?

"The careful driver can be identified through a number of habits," pointed out California Highway Patrol Commissioner Bradford M. Crittenden.

"For instance, he never exceeds a safe speed or the limit applicable to the roadway he happens to be on, he maintains an ample margin between his vehicle and the one ahead, he signals every turn and lane change, he follows the directions provided by official signs, he yields the right-of-way in those situations where aggressiveness could spell disaster.

"In other words, he complies with the law. Each of the procedures which stamp him as a careful driver are, in fact, set forth in traffic law for the benefit of all drivers.

"Compliance thus indicates that the driver has come to the wise conclusion that the law is designed to protect, not harass. Your personal decision to know and obey the law demonstrates your desire to drive safely.

"The definition of a careful driver, then, is actually very simple. He is the person who drives legally," the commissioner said.

The City and County of San Francisco uses about 91 million gallons of water per day.

ALPINE MEADOWS IS FEATURE OF SUNSET

The December issue of Sunset Magazine, Lane Publishing Company, carries a noteworthy story on Alpine Meadows, a major new ski area, just over the crest of the ridge from Squaw Valley, which is scheduled to open in mid-December.

The access road, the article reports, has been completed, the parking area and day lodge are finished and the 5,600-foot double chair lift is ready to run.

It's the first major ski development in the state since 1958. Alpine Meadows sprang up with almost schuss-like speed, a circumstance rare in snow-country construction activities. Weather and other variables generally delay the timetable of project ski development for at least a few months if not a year or more. Actually, Alpine Meadows isn't as sudden as it might seem. Plans have been under way for several years. And skiers, for several years, have been extolling the merits of the ski terrain they saw when they looked down into Bear Creek Valley from the top of Squaw Valley's KT-22.

Now that a chair lift and two Poma lifts bring skiing into the realm of reality, Alpine Meadows' four separate bowls in Bear Creek Valley promise some splendid skiing prospects for the winter.

The chair lift, a Riblet one with a vertical rise of 1,600 feet, unloads at an 8,500-foot elevation at the top of Wolverine Bowl, and serves Alpine Bowl as well. Two Poma lifts serve more gentle slopes. A 1,600-foot lift, with 450 feet vertical rise, is for intermediate skiers; an 800-foot one, with 100 feet vertical rise, is for beginners.

The ski lodge is a two-story, Alpine style structure. On the first floor are facilities, offices, and shops; one the second, a restaurant, bar and lounge.

To the new ski development comes a well-known skier to head up the ski school, Luggi Foeger. For 15 years he was director of Yosemite's ski school.

The access road to Alpine Meadows turn off State Highway 89 just a mile south of the Squaw Valley turnoff. Its' three miles from the highway to the ski area. There are no accommodations at Alpine Meadows, but there are ample ones in the area. Closest ones are at Deer Park, on State Highway 89, at the turnoff to Alpine Meadows. Others are at Olympic Village and Squaw Valley, 6 miles distant; Tahoe City, 7 miles; and Truckee, 13 miles.

The Greater New Orleans Bridge, opened in 1958, clears the Mississipppi River by 170 feet.

The average daily attendance at San Francisco public schools is more than 100,000.

Prices in this ad are effective Thursday, Friday and Saturday, in Tahoe City Shopping Center.

The lowest price in town is not always an indication of the best value. A combination of things we do makes Safeway Meats a better buy for you. In addition to features shown here Safeway has the low prices, too.

AGED — Even the finest quality meats reach peak flavor only after proper aging. In our vast air-conditioned aging rooms, Safeway meats are held under controlled temperatures to bring out the utmost in tenderness and flavor.

TRIMMED — In addition to quality, Safeway meats are close-trimmed, which means excess fat and waste have been removed before weighing.

USDA CHOICE — At Safeway, all Beef and Lamb are U.S.D.A. Choice grade. The best for flavor and juiciness.

Here's what we mean by Safeway guaranteed meats:
Every cut of Safeway's superb meat is unconditionally guaranteed. Take home any cut you choose, cook it your favorite way. Savor its tender, juicy goodness. If you don't agree it's absolutely delicious in every way, just come in and tell us. Your money will be courteously refunded.

Just a short note this week to say this will not be a weekly column anymore, at least for the winter months. We'll just be giving you news when there is something important going on with the Shadow Valley Country Club. This article was originated to keep everyone informed on golf and country club affairs, and believe me, news of both are down to a bare minimum these cold, wintry days . . the club will, however, be doing many things this winter. so watch for this report and you won't miss out on the fun being planned . . . There will not be a regular meeting of the Country Club in the month of December. It seems that on our regular night, there is a movie in Reno at the State building concerning the 1960 Winter Olympics and there is a great deal of interest so instead of the meeting on Monday, Dec. 4th, why don't you plan on going down to Reno to see this very interesting movie. It was filmed by John Jay and will be at 7:30 that evening. Tickets in Truckee can be obtained from Loynd's Drug Store or at the door of the State Building. . . We will, no doubt, have a directors meeting next month to further our plans for New Years Eve. More about that next time, but I want you to know that the skating party at Blyth arena being arranged by Charles and Patti Fink, will be held Friday, Dec. 8th and we will have a short article in next Thursday's paper with all the details . . bear with us!

Donner Doings

By VIRGINIA O'BEAR

I had almost forgotten what it meant to have snow at Donner Lake until last week when the children were out of school for the Thanksgiving holiday. It was skiis and ski wax, ski boots and poles with all of the gloves and paraphernalia that goes with skiing and sledding. After the outing, it was wet floors, wet children with little red hands and the scurry for warm dry clothes.

* * *

Mr. and Mrs. Richard Walker spent the Thanksgiving holiday with Mr. and Mrs. A. F. Wenta of Salt Lake City, Utah. Jean said they had a wonderful trip and was so happy not to run into a storm on the way. The Walkers and Wentas have been friends for many years and were neighbors when both families lived in Los Angeles.

* * *

Mr. and Mrs. Robert Randol and daughters, Janice, Nancy and Barbara, spent Thanksgiving with relatives in Merced. They returned to Donner Friday as Bob had to be back to work at Squaw Valley. "Rusty" has a busy schedule at Donner Lake Lodge as she is in charge of the dining room.

* * *

Mr. and Mrs. Don Hageman of Palo Alta spent Thanksgiving and the weekend with their children here at Donner Lake. The Hagemans spend many weekends at Donner Lake because the children love it so much here, winter and summer.

* * *

Donna Warnke made a hurried trip to Oakland week before last when her father suffered a cerebral hemorrage. He was in serious condition for a while but was able to leave the hospital the day after Thanksgiving. Donna says he has to take it easy for quite some time but that will be hard for her father to do as he has always been so active. All of us hope Mr. Mink will take it easy and have a speedy recovery.

* * *

Mr. and Mrs. William Stark bought a lot at Donner Lake and plan to make this there permanent home. Usually they "take off" for the winter as Bill is an engineer and does construction work. Last winter they lived in Oregon but returned in the spring. They recently completed their "cabana" moved their trailer on their lot and and are all settled for the winter. The five Stark boys like Donner Lake, too. Mike works for Jay Richards and the other four, Tim, Terry, Patrick and Billy prefer the Truckee schools to any other, they say. Welcome to Donner Loke, property owners!

* * *

Mr. and Mrs. Robert Jang and children have closed the Donner Lake Market and are settled for the winter at Soda Springs where they will again operate the Snowflake restaurant.

* * *

The Donner firemen will continue their meetings in January according to Fire Chief Hap Warnke. The last meeting fell on Thanksgiving Day and since November and December are busy months for all of us, the firemen will not meet until January 9th. Notices will be sent however and of course if there is a fire, our firemen will be there as each man knows his job!

* * *

The Auxiliary of the Donner Lake Volunteer Fire Department will have their Christmas party at Donner Lake on December 14, starting at 8 o'clock. Members in good standing are invited to attend with their husbands and the firemen and their wives are invited to the buffet style dinner without charge. A delightful evening is being planned and the menu will be baked ham, roast turkey with sage dressing, giblet gravy, mashed potatoes, candied yams, various salads, relishes, dessert and coffee. The cost of the dinner will be paid for out of the auxiliary treasury and Hal Welch gave the organization a break since it is buffet style and a committee will serve coffee and dessert and clean up. There will be a gift exchange with a Santa Claus and Hal said we would have live music for the party. If you discover you have forgotten to pay your dues, contact Ozella Slate, our treasurer, because you hard working members don't want to miss this get together! It will be fun!

* * *

The Truckee Rotary Club will have shelters ready for the school children in about two weeks, according to Johnnie Richards. Barak Wright will build the removable type shelters as soon as he recovers from some broken bones received in a fall recently. The Highway Patrol and the school district will choose the sites for the shelters which will be put in safe places and where a large group wait for the school busses.

* * *

According to lots of the Tahoe City "young fry", it's been a "blast" ice skating on the Truckee River recently. The favorite spot has been close to the Tahoe City Y where the low water has favored the forming of smooth, hard ice.

* * *

Mrs. Ben Callender returned to her Homewood residence this week after a 10-day San Francisco visit. The highlight of her visit was the birth of a new grandchild, Teri Louise, who was born at Children's Hospital in San Francisco. The maternal grandparents are the John Donald Campbells of San Francisco.

Many local people viewed the showing of the spectacular "Out to Ski" movie which was shown Sunday night at the Squaw Valley Lodge in Squaw Valley. The film was produced and directed by Roger Brown and John Ahern. Many of the Ski shots shown were of Alta, Aspen and Mammoth and one of the highlights starred locals Gorden Butterfield and Joe Marillac hazarding the climb and descent of Mt. Rainier. The descent was a complete ski descent, a feat not often duplicated. Another interesting feature of the film were shots of Roger and Jackie Paris in kyacks. Paris, a ski instructor on Donner Summit, is at present the world champion kyack racer.

In the audience at the showing were Brown, Paris, Butterfield and Marillac.

RETRIAL IS SOUGHT IN DR. WYATT CASE

CARSON CITY—An oral argument seeking a retrial for Dr. Thomas Wyatt of Crystal Bay, convicted of attempted abortion, was presented in the Nevada Supreme Court Tuesday. Attorneys for Dr. Wyatt asserted District Judge Clel Georgetta erred in the jury trial in permitting witnesses to relate stories they heard about the doctor's reputation.

Wyatt was sentenced in February to one to two years in prison but is free on appeal bond. He has been removed from the California and Nevada medical associations.

The defendant was arrested in an operating room at Crystal Bay with a woman hired by the district attorney to pretend she was pregnant and asked the doctor to perform the operation.

Wyatt's attorneys said the jury should have had the opportunity to determine whether the doctor planned to break the law or whether the idea was implanted in him by the district attorney. They said the doctor was examining the woman and not performing an abortion.

MANDRAKES WILL BE NEVADA LODGE STAR

CRYSTAL BAY — The Mandrakes—Jim Mandrake, Bean Carter and Ed Seymour—take the North End of Tahoe spotlight in the theatre-lounge of the Nevada Lodge on December 5th.

This trio is fast becoming a popular attraction across the nation. Their vocal and instrumental styling and fresh, comedy routines have won them important supper-club dates from Florida to the Pacific Northwest. In the relatively short time the group has been together, they have several television appearances, two successful recordings and an unprecedented eight-month engagement at a top supper-club in Las Vegas to their credit.

The Mandrakes will be featured through December 26th in the theatre-lounge of the Nevada Lodge, the all-year, hotel casino located in the heart of the Mt. Rose-Squaw Valley ski country.

You Couldn't Get Better Faster

When you think about the above headline in relation to prescription drugs, it has sort of a double meaning.

Less than 10 years ago you couldn't recover fast from many illnesses because your physician was unable to write a prescription for many of the drugs which we have today. The drugs just weren't available.

Today, you can get better faster in the U. S. than any place else in the world because your physician has available to him a wide variety of remarkable new drugs produced through private, original research by American drug firms.

It's comforting to know that under our system you can get better faster than ever before.
